State and Zip Code No.

hereby make s application for permission to change the

Place of Use

Point of diversion, manner of use, and/or place of use

of water heretofore appropriated under Permit #23733 (8464)

(Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and

Identify right in Decree.)

1. The source of water is Underground
Name of stream, lake, underground spring or other source.
2. The amount of water to be changed 1.49 cfs
Second feet, acre feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for Irrigation & Domestic
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
4. The water heretofore permitted for Irrigation
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
5. The water is to be diverted at the following point Same as existing
Describe as being within a 40-acre subdivision of public survey and by course and distance to a section corner. If on unsurveyed land, it should be stated.
6. The existing permitted point of diversion is located within SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 16, T 40 N, R 69 E, MDM,
If point of diversion is not changed, do not answer.
at a point from which the NE corner of Section 15, T 40 N, R 69 E, MDM bears N 68°
36'45" E 11,059.88 feet distance
7. Proposed place of use portions of T 40 N, R 69 E, MDM, All of Sections 13, 14, 15, 16, 21,
Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.
22, 23, 24, 26, 27, 28, and E $\frac{1}{2}$ of Sections 17, 20, and 29, or approximately 2,600 acres.
8. Existing place of use Portions of Sections 21, 22, 27 & 28 in T 40 N, R 69 E, MDM,
Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or
totaling 347.4 acres
manner of use of irrigation permit, describe acreage to be removed from irrigation.
9. Use will be from January 1 to December 31 of each year.
Month and Day Month and Day
10. Use was permitted from January 31 to December 31 of each year.
Month and Day Month and Day
11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
drilled and cased well, turbine pump driven
specifications of your diversion or storage works.) by electric motor, underground large diameter
inter-connecting pipeline system, State manner in which water is to be diverted, i.e. diversion structure, ditches,
"laser-leveled" lands to be irrigated by controlled release into "check" units.
pipes and flumes, or drilled well, etc.
12. Estimated cost of works \$30,000.00
13. Estimated time required to construct works Two Years

14. Estimated time required to complete the application of water to beneficial use Five Years

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Applicant is co-mingling the water and place of use for seven certificated rights and, additionally, applying for several new points of diversion within the greater place of use boundary.

Please send copies of all correspondence and notices to undersigned agent.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of the waters of an underground source as heretofore granted under Permit 23733, Certificate 8464 is issued subject to the terms and conditions imposed in said Permit 23733, Certificate 8464 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of Claim 01864, Permit 2552, Certificate 478; Permit 2964 and Permits 53193 through 53204, inclusive shall not exceed 13,024.8 acre-feet annually for the irrigation of 3256.2 acres within the described place of use. A total of 1,132.91 acres of this land is supplemental to a surface water source. Any application to change the manner of use or place of use under either the surface water rights or the groundwater rights will require additional consideration and evaluation. Under no circumstances will any change be allowed that would result in an expansion of the total combined duty of 13,024.8 acre-feet annually.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not

to exceed 1.49 cubic feet per second, but not to exceed 1,078.45 acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before May 27, 1990

Proof of completion of work shall be filed before June 27, 1990

Application of water to beneficial use shall be made on or before May 27, 1991

Proof of the application of water to beneficial use shall be filed on or before June 27, 1991

Map in support of proof of beneficial use shall be filed on or before June 27, 1991

Completion of work filed AUG 10 1990 IN TESTIMONY WHEREOF, I, MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of
